Course start: 03.11.2020

STARTUP 24 STRENGTHEN AND DEVELOP THE FULL POTENTIAL OF YOUR BUSINESS

Give your startup venture a boost with the Startup24 programme aimed at lifting your team's competencies. The programme offers professional sparring with likeminded entrepreneurs, coaching sessions with experienced business professionals, as well as a coworking office space

The Startup24 programme is divided into 3 modules:

› **StartUp Basis**

Boost competence levels from the very start of your business venture, as our invited external consultants advise you on various business processes, ranging from marketing and sales, business model strategies, to personal development, organizational structure, UN SDG alignment and much more.

The module runs for 8 weeks, where we meet twice a week for a variety of lectures, dialog, and professional sparring.

› **StartUp Professional**

As part of the extension of the Startup Basis programme, the Startup Professional module offers you a workspace in Viborgegnens Erhvervsråd over the course of 4 weeks. Here you will share a workspace with likeminded professionals and entrepreneurs. This unique opportunity will enable you to do some sparring with other professionals, expand your network and provide direct access to various tools and competencies from other companies and consultants in the office.

› **StartUp Business Coach**

During this module, you will be matched with 3 other companies, where you will undertake coaching-sessions with an experienced business professional, who will follow you and your team over a 12-week period. Expect your business to be challenged through new goals and sub-goals, encouraging continuous development of your company, which will motivate you to move the company forward.

The course is designed for all companies established from August 2016, as well entrepreneurs with a solid and developed business idea. The course is for free.

For more information on the course and how to sign up, please visit www.ver.dk or get in touch with VIBORGegnens Erhvervsråd on ver@ver.dk or 0045 87 25 51 51.
